

▼ Instructions for Authors

The Journal *Medicamentul Veterinar / Veterinary Drug (Med. Vet. / Vet. Drug)* is the official publication of the National Association of Fabricants of Veterinary products from Romania (ANFPUVR) with semester appearance. Authors are expected to publish papers in the related areas to the topic of this review, and to treat the following issues:

a. Original scientific articles that present original results of basic research or drug related, extending 4-6 pages, summary in English, 200-300 words, 3-5 keywords, bibliographic references 10-12.

b. Syntheses extending more than eight pages, summary in English, 200-300 words, 5-7 keywords, related bibliographic references.

c. Case reports, which present original results of therapeutic practice, extending 1-3 pages, summary, in English, 100-200 words, 3-5 keywords, bibliographic references 6-8.

d. Short communications, the presentation of results may be partial or brief comments off of the phases of scientific research or veterinary current practice, scientific opinions, etc., extending 1-3 pages, summary in English, 100-200 words; 3-5 keywords, without bibliographic references, or exceptional, just one to two closely related thematic headings.

e. Translations, extending 1-2 pages, 3-5 keywords, bibliographic references.

f. Notices and advertisements of related fields (occurrence editorial, events, presentations of new products, of the related professional associations, etc.).

Editorial structure and thematic coverage of the publication

1. The legislation in veterinary medicine,
2. Marketing of veterinary drug,
3. Biotechnology of veterinary drug,
4. Drug research.
5. Varia

To publish the scientific papers send to the Secretariat, personally, or by mail (in Word format) to: Prof. Romeo Teodor Cristina as an attachment to the e-mail: rtcristina@yahoo.com

Papers will be submitted to peer-review by the Scientific Committee of the Journal, with notification of authors (for works accepted in final form for publication, or if corrections are required).

Refusal to issue a sent paper is not necessarily followed by the author's notification.

Full responsibility for the authenticity, accuracy and trustworthiness of data presented in the material

Copyright®

Copyright law requires that all authors sign a copyright form typified by such transfer by the magazine, represented by Chief Editor, the right to publish the material submitted.

Authors of accepted papers for publication will receive from the Chief Editor a very simple form, which will be completed, signed and returned.

After publication, authors will always be able to use anywhere, without any prior notification or permission their own published article (less in the same identical form), in accordance with the ethics of writing scientific papers, by citing as a primary source of publication of the Journal: *Medicamentul Veterinar / Veterinary Drug*.

Instructions for writing the original scientific papers:

Page number: according to the kind of article
Summary: English,
Template: Page type: A4 (29.7 x 21cm), mirror page: the top 2,7cm, left-2,5cm, right-2,5cm, bottom-2,5cm, gutter- 0cm,
Header / Footer: 1,25cm,
Layout: center - down,
Used fonts: Arial,
Tabs sites: 0,5 cm.

1. Title:
Capital letters, bold, centered, 12 pt.,
2. Authors:
Centered 10 pt., bold, first name, then last name.
 - men name(s) only the initial,
 - women name(s) - entirety.
 - institution that belongs to each author (no abbreviations), centered, 9 pt.
 - the authors, marked to the end of each name, with a corresponding number (exponent) - each number is associated with his institution.Example:

STUDIES ON SOME QUINOLONES EFFICACY

RT Cristina¹ Eugenia Dumitrescu¹, Valer Teusdea²
¹Faculty of Veterinary Medicine Timisoara
²Faculty of Veterinary Medicine Bucharest

3. Keywords:
left aligned to a tab, 9 pt., unbold, italic, as a concise and logical order.
Example:
Key words: *quinolones, efficacy, pharmacodinamy*
4. Summary:
bold, 10 p., title centered. Content of summary, according to article type, 9 pt., Aligned left - right (justify)
5. Introduction

- if necessary, without title, aligned left-right (justify), 9 p.

6. Subtitles:

- Material and method(s)
- Results and discussion
- Conclusions

These subtitles: in capitals, bold, centered, 12 p., numbered.

The full text: 11p, Aligned right (justify).

7. Acknowledgments:

- if any, normal, centered, italic, 9 p.

8. References:

- capital letters, bold, centered, 10 p., wording: aligned right justify bold, 9 p.,

9. Bibliography:

Writing is in strictly alphabetical order of first author. Will write:

- reference number
- the authors (bold): - first author, name, surname, and then others authors.
- in men case, surname initial only
- to women throughout surname
- the year in parentheses publications quoted name, preferably in full or with abbreviations established in literature
- for journals: author(s) name year occurrence Article (normal), followed by journal name (italic), volume (bold), number (in brackets) , pages (normal)
- for books: author(s), year of occurrence, name of chapter, publisher, city (normal)
- for PhD theses: author, year of occurrence, the argument theme, the university where he was supported, city (Normal)
- Authors citation, in the order of work.
- For print work Slavic, Arab, Asian, etc. registration will be conducted in Arabic alphabet. Examples:

a. for books:

Cristina R.T. (2006). *Introducere in farmacologia si terapia veterinara*. Ed. Solness, Timisoara.

b. for scientific works:

CERNEA, M., COZMA, V., CRISTINA CERNEA, SAS, C., ANCA MĂRCULESCU, (2004). *Testarea in vitro a rezistentei cyathostomelor la albendazol*. *Lucr. St., Med. Vet. Timisoara*, 37, 357-360.

c. for Congresses or Organisation papers:

*** FEDESA (2000) - Antibiotics for animals. A FEDESA perspective on antibiotics, *Animal Health and the Resistance Debate*, vol. February: 6;

*** EMEA Committee for Veterinary Medicinal Products - Doxycycline hyclate, Summary report (1), EMEA/MRL/270 /97- Final June 1997.

d. web-sites: www.noahcompendium.co.uk

J. Antimicrob. Chemother. (2003)

www.jac.oupjournals.org/cgi/content/abstract/dkh007v1

Author's citation in the text:

- the authors will be cited in the text between brackets simple author name followed by the paper publishing year.
- ex.: (Pastea, 1990).

- if there are two authors, both will be cited: ex. (Teusdea and Mitrănescu, 1999).

- if there are many than two authors, will be cited: ex. (Taylor and al., 2004).

- if it is referring to an author, which in turn is quoted by another author: (Trif et al. cit. Oros, 2006).

- check all references to authors in the text and vice versa, all authors of the text to appear in the bibliography.

- Citing is done by registering the serial number of the work, in parentheses, usually at the end of the sentence, ex.: (1, 3, 9, 33).

Italics:

- for the Latin words: *ad libitum, in vitro, in vivo, et al., Per se, ad hoc, inter alia* etc.

- scientific denominations of the species: ex. *Haemonchus contortus, Brachyspira spp, Datura stramonium, etc. Candida albicans*.

- mathematical constants and unknown, - first used in the text of a particular term,

- anatomical latin names: *latissimus dorsi muscle, the humerus bone, vena cava caudalis*.

- not necessarily to be written in italics: *corpus luteum, via, NB, IM, IV, SC, post-mortem and post-partum* etc.

Indent of connection:

- it is not recommended the syllables splitting at the end of the line, but the all word spelling throughout.

- can be used as prefixes: ex. anti-estrogenic, pre-treatment, non-active, post-partum, etc.

Not recommended:

- not permitted unequivocal and poor language,
- unscientific and imprecise.

Parentheses:

- can be used all three, without a rule.

Written in capital letters:

- all scientific names of the species, class, orders and families (bacterial, viral, parasitic etc.).

- Names of persons, institutions, abbreviations.

- Disease name not be capitalized.

Numerals:

- use letters to numerals one to nine (eg, two, five, seven) and more than nine digits (eg 10, 11, 231 etc.).

- decimal separation: the point - for large numbers of text will be adopted as short phrases, eg.: 10 million/107,

- for multiplying, the used sign is x, eg. 129 x 236,
- for division, the used sign is / , eg. 129 / 236.

Units of measurement:

- will express the international agreed standards used in the literature.

Concentration and composition:

- the preferred expression in moles (M or mM) or equivalence (EQ or mEq) (with exceptions related mortality rate, the percentage (%) of simple solutions and other simple values that are susceptible to being used presentation recommended in these situations).

Symbols:

- in conformity with mathematical standards: ex. >, <, =, }, ≡, ≥, ≤, ≠, ≈, ∞, ♂, ♀ etc.
- statistical signs: ex. *P<0,05, **P>0,01, ***P<0,001 etc.

Abbreviations:

- will be the standard eg FSH, LH, ACTH, DNA, RNA, approx., IU-international units, vs. - versus, etc.

Drafting tables:

- tables will be designed to occupy the whole width of the mirror page, not to exceed.
- If a table goes on the next page, it will be preceded by a line containing duplication end of table.
- Numbering tables is aligned right, italics: table title, bold, centered.
- numbering and table title will be edited with 9pt.
- The table, inside. - Titles to be sufficiently detailed tables and with no abbreviations.
- Tables (also like figures) will be cited in the text.
- If any tables contain notes and legends, these will be written immediately below the table.

Illustrative material:

- is represented by figures (notion including photographs, drawings, diagrams, graphs, etc.).
- All figures will be presented in black and white or color with contrast as good.
- Their size does not exceed ¼ of width mirror page.
- figures numbering is below the figure, in bold: Fig. 1. - Title, following the numbering, simple, centered, 9 pt.
- Notes in the figures will be made by Font 8.
- all figures are quoted in the text (and commented).

Footnotes (Footnotes)

- with numbers, font size 8.
- notes on a page must be included at the bottom of the page.
